Delivered/Unbilled Loads Report

You can pull this list up by going to the Load Management tab in TP, search loads. Fill in your Cust ID, Dispatch Status - Delivered , Billing Status - Billing Open. You can search that way and get the full list or go down to Billing Hold and choose Hold Enabled for just the loads with Billing Holds.
If you need to know which ones are missing a specific document search for the document under Missing Image and that will give you just the loads missing the Rate Con / Carrier Invoices / BOLs.

Please be sure to check this at least every other week and send updates to : Billing@circledelivers.com
